

**an introduction to neural networks using c infoq** - going further he describes 6 alternatives to neural networks and when they might be more suitable based on the problem that needs to be solved mccaaffrey provides working c code for the sample neural network presented at the end of his talk allowing viewers to continue experimenting, **neural networks on c codeproject** - the articles describes a c library for neural network computations and their application for several problem solving it is known fact that there are many different problems for which it is difficult to find formal algorithms to solve them some problems cannot be solved easily with traditional, **c artificial intelligence ai programming a basic** - a neural network is an artificial intelligence ai methodology that attempts to mimic the behavior of the neurons in our brains in this article we ll be building a basic framework for ai neural networks in c and teach our program to perform basic x or operations , **coding neural network back propagation using c visual** - coding neural network back propagation using c back propagation is the most common algorithm for training neural networks here s how to implement it in c here s how to implement it in c, **artificial neural network programming in c stack overflow** - you should definitely look at the heaton research if you re up to write neural networks in c they already did it they call it encog and the source code is open, **c 2 0 how can i create neural networks in c stack** - i m doing object detection in c using emgucv library but i find it difficult to develop the neural network in c for detecting the object please any body help me about this topic and how to test but i find it difficult to develop the neural network in c for detecting the object please any body help me about this topic and how to test, **programming neural networks with encog3 in c 2nd edition** - one of the most basic neural networks is the hopfield neural network chapter 3 demonstrates how to use a hopfield neural network you will be shown how to construct a hopfield neural network and how to train it to recognize patterns, **neural network algorithm example in c youtube** - my implementation of feedforward backpropagation neural network in c tutorials on this will follow soon tutorials on this will follow soon if anyone is interested in source code let me know there is an example of how to use the nn class inside more on this learning algorithm will follow as how to use it in ocr
